Solar Energy Industries Association (SEIA)

<http://www.seia.org>

Solar Energy Industries Association
575 7th Street, NW, Suite 400,
Washington DC 20004
Phone: (202) 682-0556

The Solar Energy Industries Association (SEIA) is the national trade association for the solar industry. We work to expand markets, strengthen research and development, remove market barriers and improve education and outreach for solar energy.

SEIA Government Affairs brings extensive legislative experience to advocate on Capitol Hill as the voice of the solar industry. We work with Congress to craft progressive federal policy that stimulates the solar energy market to scale up and become competitive with non-renewable energy sources currently dominating the marketplace.

American Solar Energy Society (ASES)

<http://www.ases.org/>

2400 Central Ave, Suite A,
Boulder, Colorado 80301
303.443.3130 / fax 303.443.3212

ASES is the U.S. Section of the
International Solar Energy Society

Established in 1954, the nonprofit American Solar Energy Society (ASES) is the nation's leading association of solar professionals & advocates. Our mission is to inspire an era of energy innovation and speed the transition to a sustainable energy economy. We advance education, research and policy.

Leading for more than 50 years

ASES leads national efforts to increase the use of solar energy, energy efficiency and other sustainable technologies in the U.S. We publish the award-winning SOLAR TODAY magazine, organize and present the ASES National Solar Conference and lead the ASES National Solar Tour – the largest grassroots solar event in the world.

Rhode Island Solar Energy Association (RISEA)

<http://www.nesea.org/RISEA/resources/>

<http://www.nesea.org/greenpages/?sgpld=1410&s=1>

413-774-6051

The Rhode Island Solar Energy Association (RISEA) was organized in 1975 by members of the New England Sustainable Energy Association (www.NESEA.org) & other concerned citizens. RISEA's goal is to encourage the application of Solar Energy & other Renewable Energy, by informing the public about current developments & functions of alternative resources.

RISEA is an active solar advocate & is available to answer your technical questions, locate information, & announce local sustainable events. RISEA welcomes concerned citizens believing planet Earth must be saved from environmental extinction & be renewed for our children & theirs.

The International Association of Plumbing and Mechanical Officials

Author of the "2006 Uniform Solar Energy Code"

note: book has been ordered

<http://www.iapmo.org/pages/default.aspx>

IAPMO

5001 E. Philadelphia St.

Ontario, CA 91761

1.909.472.4100

The International Association of Plumbing and Mechanical Officials has been protecting the public's health and safety for more than eighty years by working in concert with government and industry to implement comprehensive plumbing and mechanical systems around the world.

As a membership-based association, IAPMO is proud to utilize an open consensus process in the development of our flagship *Uniform Plumbing Code®* and *Uniform Mechanical Code®*. These codes are established through scientific research, debate, and analysis, strengthening our position at the forefront of the plumbing and mechanical industries.

The IAPMO Group is a complete service organization, providing code development assistance, industry-leading education, and a manufacturer-preferred quality assurance program. Each component of the IAPMO Group works toward our ultimate goal of protecting the health of people everywhere.

Global Solar Thermal Energy Council (GSTEC)

<http://www.solarthermalworld.org/>

Solarthermalworld.org is a new and global knowledge-based web portal for solar thermal professionals. It offers the latest news and background information on the development of the international solar thermal sector. Key areas include among others: news and trends, incentive programmes, policies, technological trends and market analyses. If you wish to receive news on a regular basis, you can subscribe to the Solarthermalworld.org newsletter for free.

This unique website forms a worldwide forum for experts on solar thermal technology and those interested in the development of the market. It is hosted by the Global Solar Thermal Energy Council (GSTEC), a collaborative platform between industry, research institutions and NGOs. Managed by the International Copper Association (ICA), the United Nations
